exceptionally comprehensive price guide covering vehicles for most of the last century. Prices/values are shown using the "1 through 6" rating system, which is the standard in the auto-enthusiast arena. Also included are lesser-known vehicle makes and models, like the Frazer, the Hupmobile and the Henry J, as well as light domestic trucks and even imports. Even the book's size makes it convenient to carry in your own vehicle or to take to car shows. Cars Prices is a must-have for the serious car collector, restorer, seller or admirer of classic and soon-to-be classic vehicles.
