Buy "outdated" issues and save big. By James A. Leu One year out of date and cheap when purchased, but the former usually irrelevant when one is looking for the values of cars built 50-70 years prior.

Car values fluctuate wildly, never more so than in the current economic environment. Pricing information is a must for collectors, restorers, buyers, sellers, insurance agents and a myriad of others who rely on reliable authoritative data. With well over 250,000 listings for domestic cars and light trucks, and various import vehicles manufactured between 1899 and 2003 this is the most thorough price guide on the market. This invaluable reference is for the serious car collector as well as anyone who wants to know the value of a collector car they are looking to buy or sell.
