Spanning the globe! Massive in scope and encyclopedic in detail, The Standard Catalog of World Coins, 1901-2000, provides the most comprehensive reference to 20th century coins on the market. The 45th edition of this tradition-rich catalog is vetted by experts worldwide, providing a global view of the most passionately collected and popular segment of numismatics. Based on the early work of numismatic giants Chester L. Krause and Clifford Mishler, the

Standard Catalog is the reference of choice for beginning or serious collectors, researchers and coin dealers. In the current market, with precious metals prices stable, collectible coin values have settled in to reasonable levels, driving careful collectors to seek out the highest grade coins available. This continuing interest in high-grade, exceptional coins is reflected in the catalog, which now offers more and better-defined values for many countries. Inside you'll find new MS66, PF67 and PF69 values for coins from the Peoples Republic of China, as well as many redefined PF67 and PF69 values for modern gold coins world wide. Extensive yet easily managed, the catalog is organized by country with each listing providing: Current values for coins listed by date, mintmark, and grade Universally used KM reference numbers Clear descriptions and invaluable detail In addition, listings for coins minted in silver, gold, platinum and palladium offer key information, including: Total coin weight Fineness Actual precious metal weight

About the Author Market analyst Thomas Michael has served as director of world coin values for all of Krause Publications world coin catalogs for 30 years. Equipped with a Bachelor of Arts degree in history and a Master of Arts degree in economics, Michael, who has a lifelong passion for numismatics, has played a critical role in the creation of more than 100 industry-leading references. Tracy L. Schmidt worked for several years in the numismatics auction business before joining the Numismatics team at Krause Publications. She has an extensive editorial background in the field and serves as the lead editor for a number of reference catalogs.
