The book highlights famous women of the twentieth century and features the jewelry they wore. I found it interesting that these ladies would have the pieces broken apart and reset when fashions changed. They also would have stones recut if necessary. I have some gorgeous jewelry but I love the pieces and would not want to change them. I look at the photographs in the book and think that sometimes too much jewelry on one person is really

too much. The one person who did not wear too much at one time was the late Duchess of Windsor. Sometimes less is more. Life is much simpler and more comfortable if one is not encumbered by too much money... or heavy jewels. 5 of 5 people found the following review helpful. Awesome Jewelry Porn By parka410I love making jewelry and this book has amazing photography of high-end pieces from Cartier, Harry Winston, Van Cleef Arpel, and many other fine jewelry retail that I would probably never be able to shop in. :) Makes the crap worn at the Oscars look like stuff from Claire's, believe me. :) 3 of 3 people found the following review helpful. shows great ladies and magnificent collections By Mike Gentlei have a large jewelry book collection and this is a great addition. great addition to my great jewelry collectors

Worthwhile, both for the sumptuous jewelry and for the stunning lifestyle photographs. Society of Jewelry Historians For many centuries, collecting precious jewels was the province of kings and queens, emperors, and maharajas. But in the aftermath of the First World War, royal gems passed into the hands of a different kind of elite that included celebrities and a coterie that reveled in a nouveau riche whirl. Changes in fashion and the rise of Art Deco style led them to reset pieces or commission exquisite contemporary designs. Authors Stefano Papi and Alexandra Rhodes explore this dazzling era via profiles of eleven glamorous women who built up astonishing jewelry collections in the mid-twentieth century. This revised and updated edition includes two new chapters that explore the lives and jewels of Ganna Walska and Hlene Rochas. The authors reveal the remarkable stories behind the jewels and their collectors. Not only do they bring to life the worlds in which these women moved, but they also describe the gems in detail and chronicle the work of the leading jewelers of the day, including Cartier, Van Cleef Arpels, and Harry Winston. The book is illustrated with gorgeous close-up photography of the jewels as well as drawings of the original designs, and includes portraits of the collectors by Beaton, Horst, and other leading photographers of the time. 470 illustration in color and black-and-white
