Five StarsBy jeanlbrowngood4 of 4 people found the following review helpful. 5,000 Open SaltsBy DottyeBVery good "reference" book for any collector or antique dealer to have for valid identification of collectible open salts. Because it includes all types of open salts, i.e.porcelain (china), glass, silver, etc., it is invaluable for not only the beginning collector, but for the advanced collector wishing to positively identify their collection. It gives just enough "history" and information about this interesting little collectible to make the book interesting, but happily, the focus is on identifying individual salts for the collector. The photos are such a nice plus (as some guides have only line drawings). One needs to purchase another "guide" that gives values and rarity, but as an identifying source, "5000 Open Salts" is wonderful.0 of 0 people found the following review helpful. Five StarsBy kathleen pattersonAll if this author's book are informative. I just wish that I had all of them.
