A Beginners Guide to Home Built Weapons: Ammunition (Volume 4)

Tim Johnson : A Beginners Guide to Home Built Weapons: Ammunition (Volume 4) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Beginners Guide to Home Built Weapons: Ammunition (Volume 4):

This guide covers making ammunition and its components from improvised materials. Making your own gunpowder or re-purposing existing powders for off label use, making priming compounds for recharging primers, finding materials for making bullets, formulas for various smokeless, semi-smokeless and black powders as well as black powder substitutes.
