By G. Glass
This is a unique collection of weaving patterns from a colonial era professional weaver. Mary Atwater created drafts and made weaving notes for each of the patterns. The drafts are in block form, so must be converted to thread by thread drafts for weaving. That said, a knowledgeable weaver can recreate these patterns. The writing is small but legible, and can easily be enlarged with a copier for easier reading. Mary Atwater was one of the amazing people who put tremendous, lifelong effort into preserving the old weaving patterns. Anyone interested in our weaving heritage would like this book.

What a master Mary Atwater was. This book is just one of her several treasures we can still enjoy and learn from.

This would be a great source of information if you could read it. The photos are diagrams and they are so small that I can not read them with a magnifying glass. Great Idea but poorly printed. If you want weaving patterns that can be used, this book is not for you.

This classic book contains an unusual collection of hand weaving drawings by one John Landes, who appears to have been a professional weaver of the Revolutionary period. This remarkable old pattern book would be an excellent addition to anyone's bookshelf with an interest in the subject.
