A collector's guide to peasant silver buttons

Jane Perry : A collector's guide to peasant silver buttons before purchasing it in order to gage whether or not it would be worth my time, and all praised A collector's guide to peasant silver buttons:

0 of 0 people found the following review helpful. Five StarsBy Donna ThourotHelps to extend my knowledge about button collecting.0 of 0 people found the following review helpful. Button collector Alert!By Simone Carbonneau KincaidThis is a super book for the button collector who loves silver buttons or collects peasant silver. This is a top rate publication and a must have to help you identify what your button are. .

Peasant silver buttons are the kind that are worn with traditional costume. This book is the first to identify and date all the main kinds in one compact volume. It illustrates in meticulous detail around 600 different peasant and souvenir buttons, from Europe, Asia and America. It shows the reader how to distinguish between old and modern buttons, with detailed pictures of backs and shanks as well as the different patterns and methods of construction. It also includes an invaluable list of the main silver marks found on peasant buttons, with line drawings and close-up photos. This book is primarily for button collectors, but will appeal to anyone interested in old silver jewellery.
