Must Have Book for the CollectorBy DMRThis book is a tremendous addition to the literature and a must have for the collector or anyone interested in the history of these stamps. Each issuing reservation has a section with a nice introduction to its stamps and their history. It is a beautiful, colorful book-well illustrated. A great addition to any collector's library.

There have been collectors of fish and game stamps since the first duck stamp was issued in 1934. Indian Reservation stamps were first issued in 1959, but most collectors didnt notice them until the early 1990s. Since then, collectors have been hungry for information on these elusive stamps. This catalog not only lists every stamp from all issuing Reservations, but pictures them in full color. Over 2400 photos of Indian Reservation hunting and fishing stamps as well as actual usages can be found within the pages of this catalog to help you identify what you have and to let you

know what exists. Most all of the stamps are priced at the current market. Every fish and game stamp collector will want to have a copy of this catalog to add to their reference library.
