A Guide Book of Civil War Tokens: Patriotic Tokens and Store Cards, 1861-1865 (Official Red Books)

Q. David Bowers : A Guide Book of Civil War Tokens: Patriotic Tokens and Store Cards, 1861-1865 (Official Red Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Guide Book of Civil War Tokens: Patriotic Tokens and Store Cards, 1861-1865 (Official Red Books):

4 of 4 people found the following review helpful. Must read book on Civil War TokensBy Wandering boyAnyone that

has an interest in Civil War tokens simply must read this book. Dave Bowers is, arguably, one of, if not the most important figures in numismatic literature today, and probably for as long as books about numismatics have been written. This isn't your simple, "Oh, this is a Civil War token and here are the varieties". That information is in this wonderful book, but more importantly, the why, how, where of their story. It is the history of a small piece of what happened during that time that many people don't know about or know very little. I've personally collected CWTs for years, thought I had a fairly good knowledge of them. This book showed me just how little I really knew. Simply put, not enough can be said about this book. It should be on every book shelf of anyone interested in collecting them, or just interested in aspects of the Civil War that are not well known. Is there any aspect of numismatics that Dave Bowers does not know in detail? I think not and we are truly blessed to have him share his wonderful knowledge and gift with us all. Buy this book.

3 of 3 people found the following review helpful. My Favorite Book on Civil War Tokens
By Ken Bauer
If you have even just a passing curiosity in Civil War Tokens, you must buy this book. It is far and away the best and most beautiful reference on this topic ever written. Your very modest expenditure will be rewarded with:
* thousands of color photographs of CWT, most at 50% enlargement
* Highly entertaining, informative and comprehensive sections on the history of money just before and during the Civil War, as well as a history of cataloging and collecting Civil War Tokens.
* Current value estimates for thousands of Civil War Tokens in different grades
* Much CWT information not previously published
Most importantly this compact but weighty volume gives the reader a real feel for the series and piques one's collecting enthusiasm in a way that only Q. David Bowers can.

0 of 0 people found the following review helpful. A definitive work on this subject by arguably the finest numismatic scholar of the past century
By Michael Saks
A definitive work on this subject by arguably the finest numismatic scholar of the past century. The research is extensive, the text informative, and the color illustrations sharp and clear. Two definite thumbs up !

Civil War tokens are tangible reminders of this country's history. These small, cent-sized tokens served as emergency "money" during the small-change shortage of 1862-1865. Today they are highly collectible, and *A Guide Book of Civil War Tokens* elevates the collecting and study of these once-shunned imitation cents to a new level of scholarship and accessibility. Novice and experienced collectors alike, as well as history buffs and everyone interested in the Civil War, will find this volume a fascinating and indispensable reference. A wealth of information not in print in any other single source
Detailed historical background
Valuations
How to collect Civil War tokens and store cards
Nearly every know die illustrated and described
All known issuers discussed
Technical information
Legendary rarities
More than 2,000 full-color photos
Written by Q. David Bowers
Foreword by Fred L. Reed
