Frank J Colletti : A Guide Book of the Official Red Book of United States Coins (Official Red Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Guide Book of the Official Red Book of United States Coins (Official Red Books):

0 of 0 people found the following review helpful. As great as always!By RobertWhat is there to say? The Red Boom is the gold standard of United States coins. It is excellent in all formats - hard cover, paperback, and Kindle.

By Frank J. Colletti, Forwords by Kenneth Bressett and Q. David Bowers. The Guide Book of the Official Red Book of United States Coins offers a history of coin price guides, leading up to the best-selling numismatic reference of all time: the legendary "Red Book." Longtime collector Frank J. Colletti explores the foundation laid by R.S. Yeoman, and then studies each Red Book issued since 1946. Regular editions, special editions, authorized editions, and errors are all examined in detail. Colletti tells what to look for and how to build and care for a collection of Red Books. He discusses Red Book - related medals and other collectibles. Kenneth Bressett, Q. David Bowers, and other numismatists offer their personal recollections of the famous coin reference guide that has sold more than 22 million copies. 304 Pages, Full Color, 6x9, Softcover.
