PleasurableBy salieroThis book is an excellent overview of the history of tile art. I a particularly interested in Islamic tile art, and the chapter in here is informative and contains excellent illustrations. In fact, the whole book is laden with beautiful illustrations.Also delightful is a 17th century Dutch tile panel depicting the workings of a tile factory.For anyone interested in this art form, I can recommend this as an excellent introduction.

A chronological survey of decorative tiles from Islamic, Byzantine, and Medieval through the 20th century. Profusely

illustrated in color.
