I love the approach of the book with terms and items shown in photos, both the fronts AND the backs. I am finding it very useful, easy to understand and VERY informative.1 of 1 people found the following review helpful. Very nice jewelry bookBy MelanieWonderful book to use as a reference for jewelry. The pictures are nice and colorful, however many of them are out of focus. Each piece of jewelry has a nice write up about it and the value.0 of 0 people found the following review helpful. Five StarsBy missmickey8188Awesome book, great condition.

This book was written for the novice. It contains good basic information any collector or dealer should know with over

500 beautiful color photographs of costume jewelry designed by nearly 100 designers. ABCs of Costume Jewelry will inspire a novice collector and new or small dealer, and increase knowledge of this fun-filled specialty field. Its non-technical terms and many illustrations derive from the authors' extensive experiences, both good and bad. It is written to improve your ability to recognize, value, purchase, collect, display, and clean your collection or inventory. After reading this book, if you make just one knowledgeable purchase, or avoid a bad one, you will more than cover the cost of your investment.
