Become knowledgeable about the companies and men who made your marbles. Helpful in identifying marbles, but no book can give you what years of experience collecting will give you. Reviewed by the author of the book "L. E. Alley 'Father of West Virginia Swirls' Maker of Fine Tableware" about Alley Agate Co. marbles and toy dishes as well as L. E. It is more than expected in the detailed writing and tons of photos to help with identification. Good book for a real marble lover By jalowolk Nice book with lots of great information about those

colorful, round, glass balls that are beautiful, individual works of art. Highly recommended to help you identify patterns and manufacturers.

The sprawling scope of machine-made marble production in the twentieth century is illustrated in over 590 eye-catching color images that comprise the most extensive collection of marble packaging ever assembled. Historical photos from a variety of factories are also provided. Products and packages for Akro Agate, Christiansen Agate, Davis Marble, Heaton Agate, Kokomo Opalescent, Libbey-Owens-Ford, Marble King, Peltier, Ravenswood, and Vitro are included, among others. The fascinating text, providing a history of the marble companies and their wares, was nearly 40 years in the making, involving interviews with over 100 individuals and insuring the accuracy of the listings. A bibliography and index are included, along with values in the captions. Marble collectors and glass lovers alike will be thrilled with this detailed reference work.
