American Socket Bayonets and Scabbards: A Comprehensive Illustrated History of Socket Bayonets, Scabbards and Frogs in America from the Colonial Through to the Post-Civil War Period

Robert M. Reilly : American Socket Bayonets and Scabbards: A Comprehensive Illustrated History of Socket Bayonets, Scabbards and Frogs in America from the Colonial Through to the Post-Civil War Period before purchasing it in order to gage whether or not it would be worth my time, and all praised American Socket Bayonets and Scabbards: A Comprehensive Illustrated History of Socket Bayonets, Scabbards and Frogs in America from the Colonial Through to the Post-Civil War Period:

0 of 0 people found the following review helpful. A great research book for Civil War bayonetsBy Terry SandersA great research book for Civil War bayonets. Not just pictures but descriptions of the proper bayonet that went with a

particular musket. You can go out and buy 10 other books about firearms, and all of them combined would not equal the information in this book. Easy to find the guns you are looking for, and then the bayonets that would be correct for them. I really like the fact you do not have to read thirty pages to get the needed information. Very brief, but has all the needed information. If you are going to buy only one book on bayonets, this should be it. 0 of 0 people found the following review helpful. This book is an amazing treatment of the American socket bayonet. By Dorsel Boyer. This book is an amazing treatment of the American socket bayonet, along with scabbards. It covers a wide swath of American military history. Covers arsenal, import, and commercial socket bayonets. Clear line drawings and well organized. 1 of 1 people found the following review helpful. Five Stars. By Joe Paul Lightfoot. Very good reference book. Recommended.

One of the most useful books about bayonets is finally back in print! By the late Robert M. Reilly, a comprehensive illustrated guide to U.S. socket bayonets from the Colonial era to the post-Civil War time period. This standard reference work allows for easy identification by collectors, historians and curators. Enthusiasts everywhere will be glad to see it available once more, this time in a handy softcover format. The detailed research behind this work, combined with the technical accuracy of its countless illustrative drawings, will prove invaluable to the novice as well as the advanced student of both bayonets and the scabbards that sheathed them. 100+ black and white illustrations. Softcover reprint, third edition. 8.5" x 11". 221 pages.

...excellent companion to Reilly's earlier books...fills a significant gap...the ultimate tool for identification of a socket bayonet. -- CJAC Arms, Book s, November 1, 1990. From the Publisher. This book makes an excellent companion to both Reilly's "United States Military Small Arms 1816 - 1865" (pub. 1970) and "United States Martial Flintlocks" (pub. 1986). The first nine chapters contain information on bayonets followed by two chapters on scabbards. Invaluable appendices included.
