Complete Price Guide to Watches 2016

Richard E. Gilbert, Tom Engle, Cooksey Shugart : Complete Price Guide to Watches 2016 before purchasing it in order to gage whether or not it would be worth my time, and all praised Complete Price Guide to Watches 2016:

0 of 0 people found the following review helpful. Great book on history of watches but not pricesBy NEIL HINESThe title is deceptive in that it is nowhere near informing anyone of the price of watches for the year of 2017 as stated. It is a book that is very informative as to the history or watches, especially railroad watches and their history and certain watch companies, some that are out of business now but as a source for pricing information. As far as pricing

information of today's watches it fails miserably. There are common and popular watches that are NOT EVEN MENTIONED in this large volume. An example is the newer watches of both Rolex and Omega are not there or even mentioned! I think the Bond Seamasters and Planet Oceans and Rolex Submariners should be there! I am keeping it for the historical information and guidance but that is NOT why I purchased the book. The watches I was interested in were not even there. Also, there is no mention of any Asian companies such as Seiko, Citizen or the like. Very disappointed. But is you want to know about railroad watches at the turn of the 1900's then this is your book.3 of 3 people found the following review helpful. and it looks great on the shelf when I'm notBy Laurie's Unbiased ReviewsA truly insane amount of information in this book! Very much worth the money. Have used it a few times, and it looks great on the shelf when I'm not. Very happy with this book.1 of 1 people found the following review helpful. If your interests are in antique watches this book is a "MUST HAVE"By CustomerTime honored for over 20 years this annual publication accurate and up to the minute value guide and watch identifier is a must have for novices and seasoned collectors of manly US manufacture antique pocket watches. It also does a creditable job of identifying European pocket watches and world sourced wrist watches. The authors not only help identify watch grades but also provide interesting historical data of manufactures and the evaluation of watches over the centuries and how vital accurate time keeping became for industry, governments and work place safety.

The most reliable and convenient guide to watches available, the Complete Price Guide to Watches is a mini encyclopedia with over 10,000 watches priced and over 8,000 images provided for education and identification. This book is the definitive guide for all levels of watch education and collection. Featuring thousands of price changes every year, the Complete Price Guide to Watches contains the most up to date information on American and European pocket watches and wrist watches, comic watches, and character watches, including pricing, identification information, tips, history, terminology, and the annual market report. Accurate pricing is joined by historical information on a myriad of watchmakers. The guide also has dedicated illustrated entries on how a watch works, watch parts nomenclature, the individual parts of a watch movement, how to properly open a pocket watch, caring for your watch, railroad watch dials, cases and adjustments, determining the age and manufacturer, and appraising. All of this information is accented by antique illustrations salvaged and lovingly reproduced from long lost watch catalogs, advertisements, and brochures. Because of this attention to detail the Complete Price Guide to Watches has attained near legendary status as the only true Bible of watch prices.

I've used this book for years and it is a necessity if you are a watch collector/dealer. Great information about American/European Pocket watches and wrist watches. If you are selling your watch, this is a good source to get an idea of the value. -Gregory M. KimuraAbout the AuthorRichard E. Gilbert, Tom Engle, and Cooksey Shugart have each been active horologists for over 40 years and are all lifetime members of the National Association of Watch and Clock Collectors (NAWCC). They have searched for fine timepieces throughout the world and are the foremost experts in the field of antique horology. Richard Gilbert lives in Sarasota, FL, Tom Engle lives in Louisville, KY, and Cooksey Shugart lived in Cleveland. He passed away in 2013.
