Bertrand Pizzin : Cuff Links (Memoire) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cuff Links (Memoire):

Enjoyable read for the collectorBy A.L.I don't think it would be possible to write a comprehensive book on the subject, and this isn't one, but it's a fun read.0 of 0 people found the following review helpful. a giftBy Ann HansonThe book was for a gift so not for me so really can't give a real review, seems like a good book4 of 7 people found the following review helpful. do not bother buyingBy Robert J. LanierAfter reading the only review i did buy this book. Only because it was a few dollars. An interesting very short read. A few interesting pictures. Better to search the net for free. The history is not tied to the pictures. For example Winston Churchill is shown in a speech with his hand raised. A comment is made about his cufflinks but the author did not give a close up or any description.No prices are given in the book.Again the pictures are of, i assume, the

private collection and no tie of the pictures to the history. Save your few dollars for a cheap pair of Baer and Wilde (BW) snap links. One way to get an inexpensive collection is to buy singles of snap links for \$1 to \$4. BW require the same brand as the post is a bit longer than with Kremetz or other brands. Then mix and match with the tops the same. Almost all cufflinks are very inexpensive. The variety is unlimited. Yes i am always hoping to find the \$300 set for a few dollars. Cufflinks are an interesting way to collect. I only collect things i can use. Cufflinks, tie bars and singles of dinner plates for dining variety. I buy nothing for display. Hopefully not becoming a LOL with a housefull of junk. If you wish to wear cufflinks in casual wear, buy shirts with two cuff buttons which use one at a time for width adjustment. Polo makes these. A seamstress will remove the outside button and make a button hole. This costs a few dollars. How many people wear cufflinks in casual wear? Robert J. Lanier San Luis Obispo, California

Cuff links are one of the few pieces of jewelry that men are allowed to wear, other than a wedding ring, a watch or perhaps a ring bearing the family insignia or a tie-pin. Whether they are made of precious stones or shaped like an animal, these tiny pieces of jewelry can express a tremendous amount of style and creativity. Bertrand Pizzin has one of the most exquisite and varied collections of cuff links in the world. This book takes a tour of that collection, highlighting the famous dates in the evolution of the jewelry, exploring the various styles used over the past two hundred years and examining the role they have played in fashion. Featuring the best pieces by Van Cleef, Cartier, Tiffany and others, Cuff Links is a little gem of a book and the perfect gift for Father's Day of any day.

About the Author Jean-Noel Liaut wrote the biography of Hubert de Givenchy (Grasset, 2000). He also contributes to many magazines; Bertrand Pizzin has one of the three most important collections of cuff links in the world.
