I have a lot of Swarovski Jewelry and expected to see photographs of a lot of Swarovski Jewelry. The pages looked like a slick, modern magazine spread with things like piles of crystals. Not thatmuch jewelry found in this book. I wish I had not purchased the book.6 of 6 people found the following review helpful. Great coffe table bookBy Freedom LoverFor anyone interested in Austrian crystal jewelry, this book is a must have. The photos are just as artistic as the jewelry!! Love it!!
