Silver TreasureBy Pam SommersThis exquisite book was the fitting accompaniment to a splendid exhibition hidden away on the Columbia University campus at the end of 2008. This book is a treat for anyone who is interested in the silversmith's art, and in the combination of Indian craftsmanship and decorative English objects of the Victorian era. Each piece is shown in fine detail, and is contextualized with well-written text. A wonderful book!3 of 4 people found the following review helpful.
