## **Dime Size 5 Coin Tubes**

**Whitman Publishing : Dime Size 5 Coin Tubes** before purchasing it in order to gage whether or not it would be worth my time, and all praised Dime Size 5 Coin Tubes:

0 of 0 people found the following review helpful. **Tops Are Not Secure**By NRHgrandpaThe tops do not screw on securely, making this an unsafe container for your coins. The design leads you to think that the tops screw on but they do not. You can pull these tops off. The same issue applies to the Whitman Cent size containers. The nickel, quarter, and half dollar containers are fine; they actually have tops that screw on securely.0 of 0 people found the following review helpful. **Vaper? Your 18650 mod batteries fit perfectly.**By NineToezI saw a post in reddit.com/r/ecr once where someone mentioned using dime tubes would work for carrying 18650 batteries in your pocket without shorting them. Sure enough, they're a perfect fit. Two stacked 18350 batteries however will not fit in one tube.0 of 0 people found the following review helpful. **Five Stars**By Bob BrownGreat cases for holding your silver dime collection. They are tough and well made.

Built to last, these high impact tubes with twist-off caps are built with excellent quality and durability. Inert Polystyrene. Each tube holds 50 coins.
