This is THEE book on vintage Wilendur tablecloths and towels, some of the most beautiful vintage linens produced, as far back as the 1920's. Shows over 400 gorgeous pictures of tablecloths, towels, aprons, curtains and more, all produced by the Weil and Durrse company, the manufacturer of Wilendur and other brands. Lots of great information on the history of the company and information on all of their brand lines. Absolutely wonderful, very interesting book. Also recommended "Collectors Guide to Vintage Tablecloths" by Pamela Glasell.

This beautiful book is the first to exclusively present what many agree are the very best of vintage household linens,

the products of the Weil Durrse Company of New York City, from the 1920s to 1984. Their Wilendur(TM) and other brands reign above others in the collecting world for good reason. The bold and beautifully executed patterns stand out as art of the highest quality. Their inks and dyes, as well as their base fabrics, were exceptional. This book provides a brief history of the Weil and Durrse Company and descriptive text for over 250 different tablecloths in 120 printed designs. 425 color photographs display exquisite floral tablecloths, napkins, placemats, curtains, towels, aprons, and handcrafted items. This fascinating and important book is for professional textile designers, historians, dealers, and collectors alike.

About the AuthorMichelle Hayes has been a serious collector of vintage households linens for many years and recently has specialized in the fine products of Weil Durrse.
