(Read download) Encyclopedia of American Silver Manufacturers (1986)

## **Encyclopedia of American Silver Manufacturers (1986)**

**Dorothy T. Rainwater : Encyclopedia of American Silver Manufacturers (1986)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Encyclopedia of American Silver Manufacturers (1986):

0 of 0 people found the following review helpful. Your go to book on American SilverBy Nunya InctDorothy Rainwater was an expert on silver, this fine book gives a comprehensive listing of 1400 American silver manufacturers, the manufacturing of which really started in 1842 when silver production moved away from handmade to mostly machine manufactured thanks to the industrial era which, along with, important silver deposit discoveries made some ownership of silver affordable for practically everyone. This wonderful book shows the makings used by the manufacturer along with founding history, location of where they started, subsequent moves, mergers and other interesting facts. One cannot go wrong buying this book if you have any interest in American silver, which, in my opinion, is the world's best in the guilded age.0 of 0 people found the following review helpful. Very good referenceBy Aunty EThis was just what I was looking for. A starter book to help identify American Silver manufacturers and their marks. The marks are clear and there are many. Also includes very detailed histories about the companies and their often multiple ownership transfers and what they produced during these periods.Note that it is published in 1979 so it doesn't include recent history but for the used price it was an excellent purchase for me.0 of 0 people found the following review helpful. Concise, well-written reference which is exactly what I was ...By Robert F. O'RourkeConcise, well-written reference which is exactly what I was looking for in a book. It has some of the more obscure marks of companies that merged with other companies multiple times and you're never quite sure who did what, when they did it and where it happened!!

Third Edition 1986 - With more than 2200 marks illustrated and brief histories and cross-references of more than 1400 manufacturers, this is the most comprehensive reference source on the subject. To compile the information presented here, D.Rainwater devoted much of her time for almost 30years researching numerous sources, including Trademarks of the Jewelry Kindred Trades, U.S. Patent Office records, silver and jewelry catalogs of manufacturers, wholesalers and retailers, business records, and pieces in antique shops.
