Child-size vehicles have been made as toys since the advent of a horseless carriage. Filled with images, descriptions, dimensions, and original values of toy vehicles, this book will delight adults who remember and children who dream.

Original catalogue pages from 1884 through 1974 give specific information today's enthusiasts want. 114 colour photos show great old styles and recent styles. A wonderful reference and wish list.

The publishers of the collectible pedal car series are proud to introduce the edition that started it all. Provided with identification and pricing information for riding toys manufactured by Murray, Garton, Toledo, and other companies.

Pedal cars aren't all that can be found, as there is a selection of sleds, scooters, tricycles, and more added to the excitement! 1997 VALUES -- Book Description
