[Free and download] Factory Decoys of Mason, Stevens, Dodge, and Peterson

Factory Decoys of Mason, Stevens, Dodge, and Peterson

John Delph : Factory Decoys of Mason, Stevens, Dodge, and Peterson before purchasing it in order to gage whether or not it would be worth my time, and all praised Factory Decoys of Mason, Stevens, Dodge, and Peterson:

0 of 0 people found the following review helpful. Five StarsBy William Foxvery interesting and valuable for our collection1 of 1 people found the following review helpful. My best book about decoys.By dogsrule19341All the best: description, big detailed color pictures, detail explanation of decoys difference, simple language, lot of examples, reference from the old original company catalogs, exactly what I need. I recommended.0 of 0 people found the following review helpful. Book is almost all about Mason DecoysBy Just me in MissouriI had hoped expected more material on Dodge Peterson decoys considering both makers are named in the book title. This book is mostly devoted to Mason decoys.

Factory-made bird decoys by Mason, Stevens, Dodge, and Peterson are covered extensively, featuring only the finest

examples by each maker in this beautifully illustrated book. Color photographs of over two hundred decoys, plus many black and white photographs and line drawings, make this an invaluable guide in identifying and authenticating factory birds. Included are short histories of each maker. Mason collectors will especially enjoy the chapters on the different species and the special-order models, while a chapter for the new collector is devoted to the characteristics of the different grades of Masons and how to distinguish them.

About the Author John Delph resides in Florida, though he spends much of his time traveling around the country in his work for Richard Oliver Auction Gallery, of Kennebunk, Maine. John is recognized as one of the leading authorities on the firearms and tackle memorabilia in America.
