Marilyn Kluger : The Joy of Spinning: The First Complete Book on Handspinning for the Hobbyist and Craftsman, from Choosing a Wheel to Carding, Spinning, an (Touchstone Books (Paperback)) before purchasing it in order to gage whether or not it would be worth my time, and all praised **The Joy of Spinning: The First Complete Book on Handspinning for the Hobbyist and Craftsman, from Choosing a Wheel to Carding, Spinning, an (Touchstone Books (Paperback))**:

1 of 1 people found the following review helpful. A wonderful book!By YbgennyI've fully enjoyed this book. It makes for a fun read and is packed full of extremely useful info and advice.Marilyn spins tales of herself, and later a few friends, trying to find and learn to use their wheels.In the end, theres a few laughs, a very small car, an all knowing monk and very patient husband. xDI would recommend this book to any spinner. For one its extremely useful. And for another its a time capsule of what the world of spinning and folk art was like in the 1970s and of the knowledge she is seeking of her grandmothers time.So much knowledge has been lost of our craft, but I found gems I never knew in these pages.0 of 0 people found the following review helpful. newbie spinner hungry for infoBy laughing-girla very enjoyable read...like talking with an old friend about the joys of fiber. Even if you do not spin but you like to hear how people got into what they enjoy without being preachy, this is the read for you...especially if you enjoy all things

handy-craft. I am just learning to spin and I find it both enjoyable and informative.0 of 0 people found the following review helpful. Spinning background.By KathyCThis was the only spinning book in our local library and I found it very helpful. I wanted it for my reference bookshelf so I ordered the 'newer' addition from . I am very pleased with it.
