The Magazine Antiques June 1978

Wendell Garrett : The Magazine Antiques June 1978 before purchasing it in order to gage whether or not it would be worth my time, and all praised The Magazine Antiques June 1978:

The June 1978 issue of The Magazine Antiques (Vol. CXIII, No. 6) with various departments and the entire feature well devoted to the Winterthur Museum, Winterthur, Delaware, which houses one of the most important collections of Americana in the U.S. It was the former home of Henry Francis du Pont (1880-1969), a renowned antiques collector and horticulturist and the magazine includes an article about him as well. Edited by Wendell Garrett. 184 pages; color and bw illustrations throughout; 9.25 x 12 inches.
