This is a helpful collection of articles for any gunsmith ...By Shane BrianThis is a helpful collection of articles for any gunsmith or aspiring gunsmith. If you're looking for a brand new copy, they can be had from Palladium Press for \$25, soft cover only. They offer other gunsmithing and gun related books there as well. I just wanted to warn those of you looking for a pristine copy so you don't spend hundreds of dollars on one of these 30+ year old prints.0 of 0 people found the following review helpful. More than I expected.By monty crainGreat old book, had the specific article on lever action takedown conversions I was looking for plus a lot of older information on Garands and other military service rifles. Plus lots of articles on custom gunsmithing including a profile Ted Blackburn. I highly recommend it
