The Official Precious Moments Collector's Guide to Figurines, 3rd Edition

John Bomm, Malinda Bomm : The Official Precious Moments Collector's Guide to Figurines, 3rd Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised The Official Precious Moments Collector's Guide to Figurines, 3rd Edition:

12 of 12 people found the following review helpful. Helpful GuideBy ShopperThis book is very user friendly, giving you the option to look the items up by either alphabetical or serial number. The book itself has a picture of every single Precious Moment, the different symbols each one could have to determine their worth and even gives you the cost of the original purchase when it first came out. I found the guide to be very helpful. I would highly recommend if you are a collector and would like to know the worth of each Precious Moment. I found that quite a few of them are worth much more than the original cost. I also bought the Bakertowne's Guide, but that guide is not nearly as informative as this one and has no pictures of the figurines.8 of 8 people found the following review helpful. Over

Priced!!By Cortez MermaidI think this book was way overpriced...it still had its pricetag on the back cover of \$24.95...why they charged me so much more is a real insult...buyers beware. I know these books are hard to come by but I think my purchase was a consumer rip-off.0 of 0 people found the following review helpful. Great Book!By CarrieI purchased this book, and another edition, and really liked both of them. It has color pictures of each figurine as well as the name, product number and values for each symbol that can be found on the bottom of the figurines. There is also a place next to each figurine picture to write the purchase date and price paid. At the back of the book, there is a numerical and title index. I have looked for similar books and can't find anything comparable that I like as much. I've collected Precious Moments for years and this is a great reference book to help document my collection.

Carrying messages of loving, caring, and sharing, the Precious Moments children have grabbed the hearts of collectors everywhere. This newly updated book, now in a larger, 8 1/2 x 11 format, will become an indispensable resource for collectors around the country. This new third edition presents approximately 2,700 bisque figurines. It includes current as well as retired pieces. It contains new pieces and more updated and accurate information, plus new sections. This book is undoubtedly the most comprehensive official guide to Precious Moments figurines on the market. Each figurine is pictured in color and item number, date of issue, availability, and secondary market values are given. There are spaces provided for the collector to record the amount paid and the dates they purchased their pieces. A must have for every Precious Moments fan! 2008 values.

This guide is perfect for the new collectors and the old. I used it to find out how much all of my old ones are worth. It is easy to use and has every precious moments you can think of!! -J.
