The Romance of War Inventions; a Description of Warships, Guns, Tanks, Rifles, Bombs, and Other Instruments and Munitions of Warfare, How They Were Invented How They Are Employed

Thomas W Corbin : The Romance of War Inventions; a Description of Warships, Guns, Tanks, Rifles, Bombs, and Other Instruments and Munitions of Warfare, How They Were Invented How They Are Employed before purchasing it in order to gage whether or not it would be worth my time, and all praised The Romance of War Inventions; a Description of Warships, Guns, Tanks, Rifles, Bombs, and Other Instruments and Munitions of Warfare,

How They Were Invented How They Are Employed:

0 of 0 people found the following review helpful. This is an old book. By JEFFREY VAN HOE From what I could tell this was written during or right after WW1. We certainly know a lot more about radio and light frequencies today. We also know much more about how airplanes fly. This author would be amazed to know that a B2 Bomber is hard to land because it wants to keep flying. It may have been a good book in it's day, but I didn't realize how old it was. 0 of 0 people found the following review helpful. Fascinating subject, well written and researched... a real pleasure!!! By Tim Very nice descriptions of war munitions and devices. Clear and concise and knowledgeable narrative of 'how things work' and, remarkably, not obsolete (this is year 2016). I learned a lot and am grateful to Mr Corbin for covering this subject. 1 of 1 people found the following review helpful. A window on it's time By Mitchell B Seligson An interesting review of science and technology of 1917 requires me to add eleven more words to my review.

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.
