She created many drafts and beautiful designs, and worked out drafts for historic coverlets with step by step "recipes" for creating them. This is a lovely little book, full of information about setting up the loom, comparisons of loom types and drafting differences in other countries. Her hand lettered instructions are beautifully done and there are lots of black and white pictures and other illustrations. Mary also addresses weavers' knots and finishes. This is a really delightful and comprehensive book for it's time.0 of 0 people found the following review helpful. Five StarsBy Congoleum BreckenridgeA true classic - great foundational weaving information.
