It is fun to look up vintage figures and how many variations there were. I wish the blue snaggletooth would marry me because he is so beautiful I want to kiss him gently on his task. Too bad The prequel's were absolute garbage.2 of 2 people found the following review helpful. Excellent value!By ReddjacFor a "used" book this was in great condition!. Sansweet's *Action Figure Archive* is a completist's bible, with full-color photos and rich details about all the Hasbro/Kenner toys released from 1978 through 1997. Even if you can't afford (or find) all the action figures, vehicles, and playsets themselves, this book is a joy to browse, with big, well-laid-out pages that are jam-packed with film stills, toy detail shots, and information on the movies and their marketing machinery.
