The Star Wars French Connection - Version 2 (Volume 2)

Geoffrey Montfort : The Star Wars French Connection - Version 2 (Volume 2) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Star Wars French Connection - Version 2 (Volume 2):

This book is about all the Star Wars French materials published in press for the young between 1977 and 1986. Advertisements, contests, toys catalogs, comic books, stickers albums or press for the young related to the vintage Star Wars movies. It is the second volume of previous 2013 Star Wars French Connection.
