The Techniques and Art of Weaving: A Basic Guide

Marylne Brahic : The Techniques and Art of Weaving: A Basic Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised The Techniques and Art of Weaving: A Basic Guide:

0 of 0 people found the following review helpful. Waste of paper.By DJRComplete waste of paper. A little pamphlet of what looked like a promising find. The text refers to illustrations of which there are none. So, it's impossible to get anything of value from the 'book'.1 of 1 people found the following review helpful. superb!By Juniorm am a very beginner weaver and i love this book...the prose is clearly written so that i can understand it...and the pics are outstanding...this book is a superior book for new weavers...this is not a waste of money!4 of 4 people found the following review helpful. Five StarsBy Teri J. CremeensThis book has taught me the most about twill structures of any I have tried to follow.

An in-depth and extensive look at the ancient art form of weaving through its history from around the world to present

day and practical information and techniques for today's weaver. More than 600 images trace its origins and the types of looms and fiber available from stick to the Jacquard. Detailed, step-by-step instructions for various techniques including warping, dressing the loom, threading, and tying are presented in an organized, clear, and concise manner. Common mistakes and solutions for avoiding them are also illustrated. Assorted projects offer something for both beginning and advanced weavers. Make placemats, a table runner, or everyday decorations. Create a tapestry from wool or a plaid scarf. Weave a rug or a jacket. The possibilities are endless. Anyone interested in weaving will find this book to be an invaluable resource. It is a great addition to any weaver's library and is perfect for students of fashion and crafters.
